PERIODONTAL DISEASE THERE IS A CURE!

LASER PERIODONTAL SURGERY:

- Affordable and Easy
- No Cutting
- No Stitches
- No Packing
- Little to No Discomfort
- Can be Done in as Few as 2 Appointments

The best part... It's less than 1/3 the cost of periodontal surgery. And, at Pure Dental, the procedure is warranted.

That means that if you follow our simple guidelines of coming in for a checkup every 3 - 4 months and keep your teeth and gums clean using the techniques that we teach you, if the gum disease EVER returns, we will treat it FREE OF CHARGE.

The Pure Dental Periodontal Program. It Works.

We have designed this program to make the treatment of your periodontal disease very affordable and predictable.

The hygienist will scale and root plane each tooth, place antibiotic in the gum tissue where necessary (Atridox), and use the dental laser to sterilize the gum tissue in those areas. If you follow our home care instructions, we will treat any remaining pockets with laser at no charge. There is no limitation, so effectively if you follow our advice, it will be the last time you will have to pay to have any type of gum surgery. Together we will get your gums healthy and keep them that way, hopefully forever.

To keep the warranty, you will need to return to the office every 3 - 4 months for a re-evaluation and periodontal maintenance cleaning.

PERIODONTAL PROGRAM

12 Month Interest Free

\$95 per month*

| | |
|-------------|----------|
| Fee | \$1,700* |
| 1/3 Deposit | -\$ 567 |

| | |
|---------|---------|
| Balance | \$1,133 |
|---------|---------|

A typical surgical periodontal case would otherwise cost between \$4000-6000.

Call us at 631.929.5855 to learn how our Perio Plan can protect your teeth.

* Prices may vary. Other options may be available for patients who do not choose financing options. Prices as illustrated are with Pure Dental Plan.
